This spring we will again participate in the Prevea "Love 2 Run" program. This is a 6 week structured program that encourages health and fitness, and over course of the program aims to get kids ready to participate in the Cellcom 5K on May 18.

By participating in the program kids can get discounts on race registration fee, a special race shirt and cool finisher medal and a chance to run on a race course that goes inside Lambeau Field! We also will try to get kids ready to participate in the Navarino Trail run on April 27.
